APL20210249	Issue: Assessment valuation is not supported by sale price, negotiation in process. Appellant reports property was not officially listed but was market by word of mouth at \$800K. Home does not have a functional kitchen in main portion.	CLOSE	04/26/2021																
	<b>Action:</b> Building was utilized as office space for many years. Buyers are intending to utilize for residential purposes per appellant. Appellant provided interior photos to document current condition. Garage w/workspace was sketched as a separate building due to confusion regarding the # of housing units in Govern = 2. 2nd housing unit is actually for the studio located on the upper floor of main structure. Neighborhood: JT_R_12 -> JT_R_1_5. Revise sketches into one. Apply 95% completion due to lack of finished kitchen, lack of ceiling in kitchen, bathroom conditions that dictate replacement, etc... as documented by interior photos. Main strucutre: EYB 2000 -> 2001 (allowance made trthrough comp%), Secondary structure: value as unfin detached garage + MiscImp work space (was previously valued as a hosuing unit + attached garage).

APL20160258	Per appeal, analysis of the property supports appellant's estimate of total value, but not the appellant's allocation. However, in 2016, there is significant inequity in the land. For the purposes of addressing this appeal's specific issues, the land rate was updated to current NBHD values per spreadsheet, then reduced using "final adjustment" to meet appellant's estimate of value, roughly equal to current assessed value of 1B0201010111. Needs review in 2016 once land values are equalized throughout the nbhd. The "loss" in market value can reasonably attributed to the building which is in very poor condition. In order not to under value the parcel, the building value is raised to compensate for the lowered site value. Building value was estimated at approx. 90,400 and then increased to meet the aggregate market value. THIS PARCEL NEEDS REVIEW FOR 2017 to correct the land and bldg values.	CLOSE	04/11/2016

APL20220267	Issue: Site valuation does not appear to consider steepness, road access and general difficulty of the site in creating a building pad. Site value is not supported by 2016 purchase price \$55K		CLOSE	04/07/2022
Action:				
Parcel was being valued as a economic unit with adjacent parcel (0111) owned by same owner which has a home. As this was considered to be one parcel with 0111, no vacancy adjustment was applied but both parcels received the benefit of the larger unit base rate. Value subject property as stand alone vacant parcel. Apply \$50K vacancy adjustment, TOPO/ACCESS 100->80. Explain to appellant rationale for the change and give notice that the value for 0111 will likely increase as a result of the correction to the base rate.				
Disposition:				
06/08/22 e-mail appellant proposed valuation with DEADLINE				
06/13/22 spoke with appellant telephonically				
06/13/22 proposed valuation accepted by appellant e-mail

APL20150223	2015 LIHTC\ al	CLOSE	05/12/2015
APL20160564	07/18/16 Per my phone call, I reviewed the 2016 expenses to my entries in the worksheet and found two errors that substantially changed the discount amount. 1) Under fuel expense my entry was \$275 when it should have been \$20,950. 2) Maintenance staff & supplies was 42,720. It should have been 42,460.	CLOSE	07/18/2016
	The corrections increased the Low Income Housing discount from 47.9% to 59.20%. The impact decreased the taxable value from \$777,300 to \$608,100 (169,200)

APL20140164	5/16/14 Owner's agent provided 4 years income and expense information. Information was reviewed, income approach to value was calculated. Motel is on leased land, leasehold interest (motel only) is listed for sale at 799,000. Site is valued at 12 PSF. Agent's analysis appears reasonable in light of the data provided. Value indicated by Income of 1,379,900, less BPP of 179,000 yields value of 1,201,000. Apportioned as follows: N/C to Site value 910,400. Chg Bldg value from 1,375,000 to 290,600. Chg Total from 2,285,400 to 1,201,000. jcs	CLOSE	04/25/2014

APL20210256	We have reviewed your assessed value and found that an increase in value will be suggested to the BOE. If you would like to withdraw your appeal, the 2021 assessed value will remain and changes will be applied next year. In reviewing the Vintage area commercial properties we determined that application of a new land model was appropriate. The proposed value is based on the new Vintage area land model which is being applied to the 5 appeals in the area. The remaining parcels will be adjusted in 2022. AV = 2,521,350 NV = 2,987,303	CLOSE	04/26/2021
