

COMMERCIAL BUILDING PERMIT REVIEW STATUS

as of 4:00:00AM on 4/25/2024

Please note this report is updated once daily, Monday through Friday and is only to be used as an estimation of plan review status. Plan review status can change upon submission or comments from applicants or other sources. This report does not reflect overall permit "approved for issuance" status or "permit issued" status. A Permit Center technician will contact you when your permit has been issued. A permit that appears on this list with individual reviews approved has not been formally issued and construction may not commence until the permit is issued and a copy of the approved plans are on site.

The following pages list building permits under review in Juneau by the following neighborhood locations.
