

As required by section I.D.1.g. of NPDES Permit #AK-002321-3 (Juneau-Douglas Wastewater Treatment Plant), the City & Borough of Juneau's Wastewater Utility hereby notifies the public that a combination of sanitary and storm sewage has been discharged into the Gastineau Channel. This discharge occurred on Sept. 20, 2004 beginning at 11:16 PM and concluding on Sept. 21, 2004 at 9:30 AM from the permitted diversion structure at Sea Alaska. The cause of this discharge was due to heavy rain fall and combine system. Environmental impacts are expected to be small due to the very dilute nature of the discharge. For more information, interested parties can contact the W/W Utility at 907-790-2525 between 8:00 AM to 4:30 PM, Monday through Friday.
