Re: Inspection #316900349

Dear Employer,

On June 10, 2014 the Alaska Occupational Safety and Health Section (AKOSH) conducted an unprogrammed related enforcement inspection at your establishment site located at 2009 Radcliff Road, Juneau, Alaska.

The Enforcement Officer completed the investigative report and found No Apparent Violations (NAV) during the course of the inspection. This is a significant accomplishment that deserves recognition.

However, please be aware that the NAV finding does not imply that this workplace is free of all hazards nor does it preclude any possible future enforcement activity. The enforcement officer may not have evaluated all your establishment's policies, procedures and/or related equipment based on the scope of the inspection.

We would like to thank you for your time and patience with AKOSH during the inspection and for achieving a NAV inspection. Your cooperation and assistance for providing a safe and healthful work environment for your employees is appreciated.

Sincerely,

A handwritten signature in blue ink, appearing to read "K. Bailey".

Keith A. Bailey
Chief of Enforcement, AKOSH
