

# **JUNEAU FLIGHTSEEING NOISE ASSESSMENT**

## **PUBLIC MEETING**

July 27, 2000

7:00 p.m. - 9:00 p.m.

Centennial Hall

### **I. Greetings and Introductions**

### **II. Ground Rules**

### **III. Brief presentation on the purpose and methods of the noise study**

- A. How the study is conducted
- B. The study methodology
- C. The factors that are measured
- D. What we can expect to learn from the study

### **IV. Group Discussion - What is important to know**

- A. Refining the measuring site map
- B. Determining the variables that impact noise levels
- C. Determining the impacts and effects of noise

### **V. Next Steps - Study time-line and next public meeting**

- A. Results of the technical data gathering
- B. Possible options for improvement of noise levels
