

Internet Terms of Use for Library Computers

The library has established these terms of use under CBJ 03.20.020 to give equitable access to everyone who uses the library's computers and internet connections and to assure that such use does not interfere with others and is in keeping with the nature of the library's program and services. Use of this service is a privilege. Failure to comply with these terms may result in the loss of that privilege.

By clicking the "I AGREE" button below, you are agreeing to abide by these terms of use:

1. Use of internet access computers is on a first-come, first-served basis. Stations have no advanced signup. Use only one session at a time; when your session ends, the station becomes available to the next patron waiting.
2. Cardholders may use the desktop internet stations for a maximum of 2 hours per library location, per day. This includes all desktop internet stations in the library, regardless of type. If you require more than 2 hours, laptops for use within the library are available to adult, student, legislative, and statewide cardholders in good standing. Word processing computers, which typically do not have time limits, are available for those writing who do not require internet access.
3. Guest passes are available to patrons who do not have library cards. Patrons who qualify for library cards under the [registration](#) policy are encouraged to acquire a library card instead of using a guest pass. One guest pass per patron is allowed per day, and guest passes allow for a total of 60 minutes of internet use per day. Acquiring more than 1 guest pass per day, or using a guest pass in addition to a library card, constitutes abuse of the guest pass system and will result in loss of privilege.
4. Graphic material accessed at any terminal may not include sexually explicit images. A written definition of sexually explicit is available on the library's policy page, www.juneau.org/library/policies.php, section 2.2c, or from staff.
5. Viewing, downloading, or transmitting child pornography is a criminal act under AS 11.61.123 & 127 and will be reported to law enforcement.
6. You may not modify this computer, its software, or the internal network to which it is connected in any way.
7. The library is not responsible for damage to personal technology.
8. Although efforts are made to maintain the confidentiality and privacy of personal information, the library cannot guarantee confidentiality or privacy on computers used in a public area.
9. Library users over 18 may choose an unfiltered internet session in accordance with *United States v. American Library Association*, 539 U.S. 194 (2003). No filter is 100% effective. As the internet is a dynamic space, the filter will occasionally err in both under- and over-filtering web sites.
