Re: Airport Board meeting scheduled for January 11, 2006

I received your December 23, 2005 letter recommending removal of brush/trees and undergrowth along the fence line adjacent to Berners Avenue, Ladd Street and LaPerouse Avenue.

I **strongly object!!!!**. Please, note you have already removed some of the undergrowth.

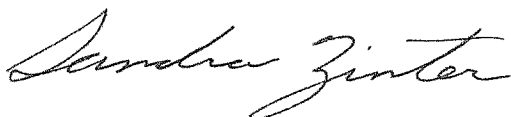

I bought my condo on LaPerouse October 8, 1982 fully aware of the Airport which brings noise on one side and overhead. Then the Sewage Treatment Plant was imposed, over my objection, on the other side so brought smell/stench; it still continues. Now you bring a visual eye sore, of parked cars, on the other side, which as you describe brings vandals, what an **INSULT** to our neighborhood.

I moved to Juneau February of 1965 and came here with the idea of **PRISTINE** environment. Does this look like what brings you to Alaska (noise, terrible sewage smell and eye sore of stored cars and vandals to our neighborhood? I don't think so..

As you mentioned, in your letter of December 23, you "may include placing security wire inside the fence line" so why don't you, and leave the trees/brush/undergrowth to cover the eyesore - if you must park cars in our neighborhood.

We try to be good neighbors, please look at the Cambridge Estate buildings, they are well kept and no **JUNK** anywhere on our properties. Our condo units Cambridge Estates I and II, on LaPerouse, installed motion lights (for security) not paid for by anyone but **US**, not the City/Borough of Juneau. Why can't the City/Borough of Juneau be good neighbors to us?

Sincerely,

cc: AIRPORT BOARD
