Airport Manager

Re: Airport Board Report

RSA:

- Revised Engineer's Estimate remains about \$35 million.
- Bids for the RSA Improvements construction project are due 8/7 with Assembly action scheduled for 8/10.
- Proposals for RSA Project Construction Administration are due 8/5. Four firms submitted proposals. The Evaluation Committee will have turned in evaluations by now.
- While I was out to Wisconsin, staff and consultant processed several addenda to the RSA bid docs (many thanks!).
- Other than that, there's a brief pause until after bidding.

Other

- Several of us are working on parking layouts for the 135 ramp area. The terminal loop field work area may be paved soon and need striping.
- Oshkosh was great!
