Good morning Jeannie as an interested citizen I just wanted you and the board to know how much I appreciated the Airport board's financial report last evening. The involvement of your staff at last evenings clearly indicated to me there is a strong team process in place and it is working. Your presentation was factual, concise, and easy for someone like me to follow all of which I feel are exceptionally important for our community. I would appreciate you passing my comments on to your board.

Sincerely,

Dennis Watson
