

ATTACHMENT #3
ADDENDUM TO AIRPORT BOARD AGENDA MEETING
NOVEMBER 8, 2016

- VII. **New Business Sections C. Acceptance of BP Exploration Aircraft Rescue and Fire Fighting (ARFF) Truck.** BP Exploration would like to donate their 1991 OSHKOSH T-3000, 3,000 gallon water ARFF truck to the Juneau Airport. It is currently located at Prudhoe Bay. Lynden has given a shipping estimate of \$9,000; and BP has offered to pay \$6,000. The airport will need to pay the remaining (estimated) \$3,000, as well as repaint to Airport standards. Fire Department Mechanic Scott Reid has talked to the BP Exploration mechanic and is confident it is in good shape. The vehicle is coming with all new tires valued at approximately \$35,000. The truck is ready for shipment.

While the truck is older, it is in good condition. BP's ARFF truck has only 330 hours on it, versus our 1993 Oshkosh (A-2) which has over 2,000 hours.

Board Motion: *“Accept the donation of BP Exploration’s 1991 OSHKOSH T-3000, 3000 gallon water ARFF truck.”*
