INFORMATION RELEASE

Subject: Incendiary Device

Date: January 25, 2010

From: Cindee Brown-Mills

Case or Incident: 100125-008

Summary:

At about 9:30a this morning JPD received a call asking that the Explosive Ordinance Disposal (EOD) Team respond to investigate an incendiary device that was found on Forest Service property by an employee.

The device turned out to be three (3) aerosol cans taped together with a marine flare used as a fuse to ignite the cans. The flare was not burning when EOD officers arrived. The liquid in the cans was determined to be flammable but not hazardous.

The device was brought back to JPD where officers are processing it for any evidence that it may contain.

Anyone with information about this device or the persons involved please call JPD at 586-0600 or the Juneau Crime Line at 586-4243.
