The following member was absent: Mr. Mehrkens and Ms. Jebe.

III. Approval of Agenda.

Motion passed without objection

IV. Approval of Previous Meeting Minutes.

No previous meeting minutes.

V. Public Participation on Non-Agenda Items.

There was none.

VI. Items for Action.

1. Discussion of Project Labor Agreement for Port Customs Building.

Mr. Stone said the Port customs and Visitor Center project has an estimated construction cost of \$7,465,570, and is generally comprised of two projects: the infill dock areas and two small buildings. This project has been advertised for bids that were due on May 20, 2010. The bid date has been postponed until further notice to address the issue of including a Project Labor Agreement (PLA). The City Assembly has expressed support of PLAs on large projects and the practice of the Engineering Department has been to consider PLAs on a project by project basis.

VI. Items for action (continued).

Mr. Gillette, our Port Engineer, has prepared an analysis of whether or not to require a PLA in this project using the 9 elements for upholding the inclusion of a PLA under competitive bidding.

Mr. Gillette said there are no official laws governing PLAs for the CBJ. For each project that is large, the city does an analysis to determine whether or not the project is bid with a PLA. The City has only done this analysis about 10 times previously.

Mr. Gillette provided a copy of the PLA Analysis for Port Customs and Visitor Center Project and gave a brief overview of the 10 criteria.

Mr. Gillette said Based on the facts and discussion presented about the Port Customs and Visitor Center project, and after consultation with the City Attorney, a good faith attempt has been made to apply the criteria in a meaningful analysis of the facts of the project. In conclusion, we do not believe this project meets the criteria requirements for mandating a PLA to be incorporated into the project.

Mr. Jardell asked if there could be a substantial cost savings for this project if a PLA was incorporated.

Mr. Gillette said with Labor Union work, we would not pay double or triple time to the work force if the project is behind schedule.

Mr. Kueffner asked if Mr. Stone or Mr. Gillette had any experience with projects at had required a PLA.

Mr. Stone said he had previous projects in the Engineering Department that used PLAs but not a Docks and Harbors project.

Public Comment

Jonathon Smith, 9991 silver St., Juneau, AK 99801

Mr. Smith said he was in favor of PLAs and he felt the Port Customs and Visitor Center project was more complicated than indicated in the analysis.

Public Comment(continued)

Mr. Smith also said there could be a cost saving to the project if a PLA was included and that union and non-union contractors could both bid on the project. Some of the PLA's include apprenticeship language in them that help provide a skill to young people that want to remain working in Juneau.

Dave Vanpool, 3820 Iowa Dr., Juneau, AK 99801

Mr. Vanpool is the owner of Vanpool painting. Mr. Vanpool said he has had problems with the Painter's Union out of Anchorage. They will not allow him to bid on projects with PLAs on them unless he and his employees join the union. He is loosing a lot of work because of this problem with the union.

Mr. Wostmann said the PLA should not discriminate against union or non-union members.

Doug Trucano -Trucano construction/Marine construction

Mr. Trucano said he is a non-union contractor but he is willing to work with the unions and union employees. He has used workers from both the electrical union and the masonry union in the past. He did not feel including a PLA in this project would help the local economy. Including a PLA will most likely bring in a contractor from out of town who will bring all of his workers from out of town.

End of Public comment

Mr. Jardell said it doesn't seem like we have the justification to include a PLA in this project and that he was inclined to agree with Mr. Gillette's analysis.

Mr. Preston said it is still the Board's decision to either include or not include a PLA in this project.

Mr. Wostmann said it is incumbent upon the Board to find or not find a justification for a PLA. He did want to encourage local hire and evidence does not suggest a PLA is needed.

Mr. Kueffner said he felt the recommendation was subjective although he was inclined to accept the staff recommendation.

- (f) *Permit eligibility and requirements.*
- (1) To be eligible to bid on a tour sales or tour broker permit, the permit applicant must:

Persons must apply on an application form provided by the port director and must include all required information and attachments.
- (2) *Application review.* The port director will review each application to determine if it is complete. The port director will reject incomplete applications.  - (1) A permit holder shall be deemed to derive a significant portion of its income from sales made through a waterfront tour sales or broker's permit if the amount of its gross income from such sales is not less than ten percent of the permit holder's gross revenue in Juneau between May 1 and October 15.
 - (2) A permit holder shall be deemed to be making substantial use of the permit by showing gross revenue from sales through the permit of over \$25,000.00.
 - (3) If required by these regulations, the director, [or] a form issued hereunder, a person shall demonstrate satisfaction of the "actively sell" requirement by submitting the following:
 - (A) A month by month report of gross permit revenue during the entire term of the permit which required active selling, together with a written explanation of how waterfront sales were calculated. If the applicant proposes to demonstrate that it

derived a "significant portion of its income from sales made through a waterfront tour sales or broker's permit" the holder shall also provide a report of the permit holder's gross revenue from all other sources in Juneau from May 1 through October 15 for the year in which the permit was used.

(B) Copies of City and Borough of Juneau sales tax returns for the permit period subject to the requirement for active selling. Copies of the tax returns shall be accompanied by a written waiver of confidentiality with respect to the returns.

This subsection only applies to tour sales and tour broker permits.

Subject: Renewal of lease: Harbor Lights Enterprises, LLC

I have reviewed the current lease between CBJ and Harbor Lights Enterprises, LLC, originally executed between the City of Juneau and a predecessor to the current lessee. As you know, the lease was assigned twice over the years, the most recent assignment being in 2008 when it was assigned to the current lessee. The original lease was entered in 1967 and expires in 2022. The leased property is the location of the building in which Juneau Electronics operates.

Harbor Lights Enterprises has requested that the lease be renewed at this time in order to facilitate their long-term financing needs for the property. The May 6, 2010 letter from Gary Patton, Secretary Treasurer of Harbor Lights, states: "Harbor Lights Enterprises seeks this renewal so as to procure long-term financing of the property to facilitate investing in updating and remodeling the existing building's systems, interior and facade. Currently we are prevented from doing so due to the amount of time remaining on the lease."

This is the same situation as we had in September 2009 with the Myron Klein (assignee lessee) lease. As you know, he needed a lease renewal early in order to facilitate long-term financing. The only difference is that was an old state lease, and this one is an old City of Juneau lease. With Klein, we did a new 35 year lease of the property under the CBJ leasing code, which provided that it superseded the prior state lease. The Assembly approved of the Klein lease adopting Ordinance 2009-20.

The only difference here is that the old lease is a City of Juneau lease. Apparently the City owned the tidelands property in 1967, not the state of Alaska as was the case with most tidelands property back then. The City lease has a renewal provision that apparently tracked the Juneau City Code. It provides for renewal of the lease with a preference for renewal allowed to the lessee. This is clear authority for renewal of the lease to the current lessee, and it is not necessary to solicit other potential lessees. In fact, given the terms of the lease, I think that would be inappropriate.

I recommend that Docks & Harbors proceed, as we did with the Klein lease, to prepare and present an ordinance authorizing a lease

renewal that will constitute a new lease under the CBJ leasing code. Please let me know the direction you get from the Board. If the Board approves the lessee's request, I can work with you to prepare a draft ordinance and lease document so those are at least in draft form before my departure June 30. You will also want to get this matter on the Lands Committee's agenda. (I will cc Deb Senn and John Hartle so they are aware of this.)

USS Juneau Memorial Design Narrative

The *USS Juneau* (CL-52) was an American Atlanta-class light cruiser sunk at the Naval Battle of Guadalcanal by the Imperial Japanese Navy on November 13th, 1942. The sinking of the *USS Juneau* resulted in loss of nearly 700 crewmen, including the five Sullivan brothers from Waterloo, Iowa. More than 100 sailors had survived the sinking but were left to fend for themselves for eight days before rescue arrived. While awaiting rescue, all but 10 died from the elements and shark attacks.

The battle of Guadalcanal and the loss of the *USS Juneau* is one of the most famous Allied naval battle stories. The new memorial for the *USS Juneau* helps recreate the battle, tell the stories, and pays respect to those lost in combat, especially those of the *USS Juneau*. This new memorial is not a typical brass plaque and flagpole but rather a multi-function pedestrian open space that provides interpretation and discovery by moving through the landscape. The memorial is rich in symbolism and creates a space that meets the needs of visitors and residents on Juneau's waterfront.

The new memorial is comprised of a large flat open plaza. Large granite cubes dot the perimeter of the plaza and represent the fourteen ships of the Imperial Japanese Navy and the thirteen Allied ships of the United States Navy involved in the battle. Each block, ranging in size from 18 inches to 48 inches, is sized based on the class of the ship and two different colors of granite are used to represent the two sides involved in the battle. The name of each ship, its class, and nationality flag will be engraved on the top of each block. Ships that were lost in battle are flush with the memorial plaza, those damaged will have scarring on the blocks, and those that were undamaged will be the tallest with a height of twenty-four inches above the plaza level. In the center of the plaza is the granite cube representing the *USS Juneau* flanked by the Japanese submarine *I-26* block which sank the *USS Juneau*. Surrounding the *USS Juneau* block are ten circular pavers (life rings) representing the ten survivors of the sinking. The plaza has a water (ocean) paving pattern and will include 687 pavers for each of the sailors lost on the *USS Juneau*. Four brass stars will be set in the plaza above the *USS Juneau* block to represent the four battle stars the ship received during its short service. The back of the plaza is lined by five oak trees, the state tree of Iowa, and represents the five Sullivan brothers lost with the *USS Juneau*. Four flagpoles fly the colors of the United States, United States Navy, State of Alaska, and City and Borough of Juneau.

Simple interpretive panels will help tell the story but it is the intent that much of the story is told through discovery by walking through the memorial plaza and the symbolism that makes up the memorial. The blocks representing the ships will be of varying height and will also serve as seating opportunities for those that wish to use the open space for contemplation or enjoying a sunny day on Juneau's waterfront.
