The following items of the contract are modified as herein indicated. This addendum has been issued and is posted online. Please refer to the CBJ Engineering Contracts Division webpage at: <http://www.juneau.org/engineering ftp/contracts/Contracts.php>

Item No. 1 Section 3.8 Licenses – ***delete*** this section in its entirety. Proposing firms are required to have an Alaska Business License prior to executing a contract with the City and Borough of Juneau, but it need not be included with the proposal.

**Additional Information** – Below are questions asked by consultant firms and responses:

- What kind of mapping/site data do we already have in place?  
*We have very little mapping, but we are also not talking about doing anything on the mountain with the exception of hiking/biking trails potentially.*
- Should our scope speak to both what we feel the public process should include as well as to what our involvement would be to assist with that process? *Yes – We want to know how consultant teams are going to gather public input, which will include what their role will be in the process.*

Acknowledgment can be made by signing and faxing this addendum to (907) 586-4530 prior to the proposal deadline, by returning the signed addendum to the Engineering Department, attention Tina Brown, or acknowledging receipt within the submitted proposal.
