## **1.0 GENERAL INFORMATION**

This Class 3 Request for Proposals (RFP) defines the scope of the project, explains the procedures for selecting a firm to provide the requested services, and defines the documents required to respond to the RFP.

### **1.1 Purpose**

The primary purpose of this document is to solicit proposals from qualified consultants to provide professional services for design, bidding, construction administration, and inspection for the proposed Marie Drake Renovation.

The Class 3 process is used for acquisition of professional services contracts estimated to be more than \$50,000.

### **Background**

The original Marie Drake building was constructed in 1965 as a junior high school. A library addition was completed in 1984. After conversion to a middle school, the building was replaced by the Dzantik'i Heeni Middle School in 1994. Since that time it has served as overflow space for Harborview Elementary School, Juneau-Douglas High School, and other Juneau School District programs. Recent projects include a new PVC single-ply roofing system in 2002, ADA renovations in 2004, a boiler room upgrade in 2010, and replacement of exterior windows in 2011.

Original construction included poured-in-place concrete exterior walls, concrete slab-on-grade first floor, concrete second floor and roof deck, and structural steel second floor and roof framing. Interior non-load-bearing walls are framed with wood studs and gypsum wallboard. The 1984 library addition is constructed of concrete slab-on-grade, structural steel framing, exterior non-load-bearing metal studs with exterior insulation and finish system (EIFS), and interior non-load-bearing steel studs with gypsum drywall.

### **1.2 Scope of Services**

The Consultant shall provide all necessary design services to prepare complete bid-ready construction drawings, specifications, bid schedule and architect's estimate for construction. The Consultant shall also provide construction administration for the Marie Drake Renovation project. The Consultant shall ensure that the contractor constructs the work in accordance with the Drawings and Specifications for the Marie Drake Renovation project, Contract No. E12-141.

The scope of construction work includes:

1. Renovation of the gymnasium including but not limited to: painting; replacement of wainscot and acoustical tile ceiling; new lighting fixtures and related wiring and electrical panel upgrades; and new public address system. The estimated construction cost of this work is \$400,000.
2. Reconfigure first floor south side classrooms to provide a greater number of classrooms and reduce classroom size. These changes will align actual size of classrooms with space requirements of the Yaakoosge Daakahidi High School educational delivery model which utilizes small student per classroom counts. It is anticipated that asbestos-containing materials (ACM) will be encountered. The estimated construction cost of this work is \$600,000.

3. Renovate two existing restrooms on each floor (four total) and reconfigure to meet ADA standards. Add new single-use restroom to Nurse's office. The estimated construction cost of this work is \$400,000.
4. Upgrade existing elevator including the following: replace all machinery and enlarge cab to meet ADA requirements. This work may require reconfiguration of the existing elevator shaft and related structural modifications. The estimated construction cost of this work is \$100,000.

The site of the work is Marie Drake Middle School, 1415 Glacier Avenue, Juneau, Alaska.

Compensation shall be computed based on the hourly billing rates, approved by the CBJ Project Manager, times the actual number of hours spent in the performance of services. There shall be no additional compensation for overtime, weekend, or holiday work.

Compensation for subconsultants shall be equal to the amounts actually paid to sub-consultants hereunder plus a negotiated mark-up percentage.

Compensation for expenses shall be an amount equal to reimbursable expenses approved in

Reimbursable expenses are expenses that are unique to the performance of the services under the Contract and generally contemplate the purchase of outside ancillary services, such as mailing and delivery charges for submittal of drawings, specifications and reports, long distance telephone calls, rentals of equipment, travel and local transportation, meals and lodging on overnight trips.

Reimbursable expenses do not include expenses that are usually and customarily included as part of the Consultant's overhead. The Consultant shall substantiate all billings for reimbursable expenses in excess of \$25 with receipted bills and provide said receipts with the appropriate billing.

The Consultant shall keep, and cause any sub-consultants to keep, daily records of the time spent in the performance of services hereunder by all persons whose billing rates will be the basis for compensation as well as records and receipts of reimbursable expenditures hereunder. Failure to do so shall be a conclusive waiver of any right to compensation for such services or expenses as are otherwise compensable hereunder.

The CBJ shall have the right to inspect all records of the Consultant, and of any sub-consultants, pertaining to this project. Records shall be maintained by the Consultant and sub-consultants for a period of three years after completion of services.
