### **1.3 Deliverable Dates**

The following deliverables are due no later than the dates specified below:

- Preliminary meeting with the CBJ Public Works Director, Project Manager, and others as determined to review initial project scope, schedule, and budget within 30 days from Notice to Proceed (NTP).
- Lists of Tasks/Timeline/Resource requirements for each specific area within 45 days from NTP. The areas to be included are, the Mendenhall, Juneau-Douglas, and the Auke Bay Wastewater Treatment Plants & the Wastewater Collections System.
- Provide the CBJ Wastewater Utilities with a detailed report presenting the findings and recommendations of the assessment with appendices format within 90 days from NTP.

### **1.4 Background**

Juneau is Alaska's Capital City. The CBJ municipal offices are located at 155 South Seward Street, Juneau, Alaska 99801. The Engineering Department is located on the 3rd Floor of the Marine View Center, 230 South Franklin Street, Juneau, Alaska.

The City and Borough of Juneau Wastewater Utility serves a population of approximately 30,711 and maintains and operates three Wastewater Treatment Plants and a Wastewater Collection System. The wastewater collection system includes approximately 139 miles of underground piping, 45 lift stations, and associated equipment to transport and process wastewater.

Over the past ten years, the Wastewater Utility has observed increasing amounts of FOGs entering the wastewater system and corresponding increases in the operational costs. FOGs are problematic because they solidify in the system, cause increased corrosion, decrease asset life expectancies, reduce pipe conveyance capacity, and can cause Sanitary Sewer Overflows (SSOs). The United States Environmental Protection Agency (EPA) has identified FOGs as the most common cause of all SSOs reported. When FOGs enter the treatment plants they can interfere with biological treatment processes, process instrumentation and equipment, ultraviolet light disinfection equipment, and other treatment components.

Reimbursable expenses are expenses that are unique to the performance of the services under the Contract and generally contemplate the purchase of outside ancillary services, such as mailing and delivery charges for submittal of drawings, specifications and reports, long distance telephone calls, rentals of equipment, travel and local transportation, meals and lodging on overnight trips.

Reimbursable expenses do not include expenses that are usually and customarily included as part of the Consultant's overhead. For the purposes of this Agreement reimbursable expenses do not include amounts for typing, utilization of computer systems, computer aided design and drafting (CADD), cameras, recording or measuring devices, flashlights and other small, portable equipment, safety supplies, phones, telephone calls, electronic messaging including FAX, Telex and telegrams, or expendable office supplies. Unless otherwise indicated, required insurance is not a reimbursable expense.

The Consultant shall obtain the CBJ Project Manager's written approval prior to making expenditures for reimbursable expenses in excess of \$500 per specific expenditure and for all overnight trips which are reimbursable expenditures as set forth above. The Consultant shall substantiate all billings for reimbursable expenses in excess of \$25 with receipted bills and provide said receipts with the appropriate billing.

The Consultant shall keep, and cause any sub-consultants to keep, daily records of the time spent in the performance of services hereunder by all persons whose billing rates will be the basis for compensation as well as records and receipts of reimbursable expenditures hereunder. Failure to do so shall be a conclusive waiver of any right to compensation for such services or expenses as are otherwise compensable hereunder.

The CBJ shall have the right to inspect all records of the Consultant, and of any sub-consultants, pertaining to this project. Records shall be maintained by the Consultant and sub-consultants for a period of three years after completion of services.
