EVALUATION RANKING SHEET

ATTACHMENT 1 – STANDARD CONTRACT, INCLUDING REQUIRED CONTRACT PROVISIONS FOR FEDERAL-AID (FTA) CONTRACTS FOR PROFESSIONAL SERVICES (Appendix D).

1.0 GENERAL INFORMATION

This Class 3 Request for Proposals (RFP) defines the scope of the project, explains the procedures for selecting a firm to provide the requested services, and defines the documents required to respond to the RFP.

1.1 Purpose

The purpose of this document is to solicit proposals from qualified firms to provide assistance to the City and Borough of Juneau (CBJ) and the Juneau Coordinated Transportation Coalition (JCTC) in developing mobility management services that will improve management efficiencies of the various transportation services available within the Juneau community.

This project is funded by an FTA grant passed through the State of Alaska Department of Transportation/Public Facilities with local match provided by the State of Alaska and the City and Borough of Juneau. The grant funding allows for \$15,000 per year, for up to three years, to be used for contractor assistance with this project.

1.2 Background

The Juneau Coordinated Transportation Coalition (JCTC) is the body that represents member agencies and determines project prioritization for paratransit and human service transportation projects in the City and Borough of Juneau. Coordination of these agencies is required by state and federal agencies for purposes of funding; projects prioritized by the JCTC must be approved and prioritized by the CBJ Assembly on an annual basis for these projects to be funded by state or federal funds.

Mobility management has been the top non-capital project priority for the JCTC for several years; mobility management will improve the efficiencies of service delivery as well as integrating the JCTC more fully into the CBJ Capital Improvement Program and State of Alaska Needs List review and project nomination process, further facilitating the efficient delivery of service by member agencies and ensuring that capital projects accommodate mobility-impaired and elderly individuals.

JCTC member agencies include the Juneau Alliance for Mental Health, Inc. (JAMHI); REACH, Inc.; Catholic Community Services (CCS); Care-A-Van (currently operated under contract by CCS); Southeast Alaska Independent Living (SAIL); and other social service and human service transportation providers.

Juneau is Alaska's Capital City. The CBJ municipal offices are located at 155 South Seward Street, Juneau, Alaska 99801. The Engineering Department is located on the 3rd Floor of the Marine View Center, 230 South Franklin Street, Juneau, Alaska.

1.3 Scope of Services

The focus of this RFP is on planning and implementing coordinated transportation services, increasing access to services and coordinating policy bodies and councils. This will be accomplished by successful creation of a framework and supporting data infrastructure to facilitate the mission of the Juneau Coordinated Transportation Coalition (JCTC), the sustainable support of that organization by the CBJ, and the effective

integration of Mobility Manager duties within existing CBJ and/or JCTC member agency positions.

The contractor will provide transitional support and Mobility Manager services, including but not limited to developing and compiling data from rider surveys for JCTC member organizations and supporting CBJ staff in fulfilling the requirements of the Mobility Manager grant from the Alaska Department of Transportation and Public Facilities (DOT/PF) to the CBJ. A copy of the grant is available through the link for this RFP at: http://www.juneau.org/engineering_ftp/contracts/Contracts.php

Deliverables

Deliverables anticipated to be part of this contract include but are not limited to the following:

- 1) Draft Survey Instrument for JCTC member clients with direction from JCTC members;
- 2) Develop electronic tools to facilitate the compilation of results of annual JCTC member client surveys;
- 3) Develop electronic and/or printed materials as requested by the JCTC to assist with travel training and facilitation of transition from demand-response transit to fixed-route transit for JCTC member clients as appropriate; and,
- 4) Other electronic and/or printed materials determined by the JCTC to be appropriate for Mobility Management, including but not limited to: streamlined application/eligibility forms for prospective clients; support of pooled insurance for JCTC members; educational and outreach materials to involve new stakeholders with the JCTC; and tools facilitating centralized or coordinated dispatch for JCTC members.

and institutions of higher education the threshold is \$100,000.

Sections e, f, g, h, i, and/or j may be removed if they don't apply to the contract.

a. Termination for Convenience (General Provision)

The Purchaser may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the Purchaser to be paid. If the Contractor has any property in its possession belonging to the Purchaser, the Contractor will account for the same, and dispose of it in the manner the Purchaser directs.

If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the Purchaser may terminate this contract for default. Termination shall be effected by serving a notice of termination on the Contractor setting forth the manner in which the Contractor is in default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the Purchaser that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the Purchaser, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision)

The Purchaser in its sole discretion may, in the case of a termination for breach or default, allow the Contractor 30 days in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions

If Contractor fails to remedy to the Purchaser's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by Contractor of written notice from the Purchaser setting forth the nature of said breach or default, the Purchaser shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude the Purchaser from also pursuing all available remedies against Contractor and its sureties for said breach or default.

d. Waiver of Remedies for any Breach

In the event that the Purchaser elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this

Contract, such waiver by the Purchaser shall not limit the Purchaser's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

e. Termination for Convenience (Professional or Transit Service Contracts) The Purchaser, by written notice, may terminate this contract, in whole or in part, when it is in the Purchaser's interest. If this contract is terminated, the Purchaser shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

f. Termination for Default (Supplies and Service) If the Contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the Purchaser may terminate this contract for default. The Purchaser shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Purchaser.

g. Termination for Default (Transportation Services) If the Contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if the Contractor fails to comply with any other provisions of this contract, the Purchaser may terminate this contract for default. The Purchaser shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of default. The Contractor will only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while the Contractor has possession of Purchaser goods, the Contractor shall, upon direction of the Purchaser, protect and preserve the goods until surrendered to the Purchaser or its agent. The Contractor and the Purchaser shall agree on payment for the preservation and protection of goods. Failure to agree on an amount will be resolved under the Dispute Resolution provisions.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Purchaser.

h. Termination for Default (Construction) If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provisions of this contract, the Purchaser may terminate this contract for default. The Purchaser shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. In this event, the Purchaser may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. The Contractor and its sureties shall be liable for any damage to the Purchaser resulting from the Contractor's refusal or failure to complete the work within specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the Purchaser in completing the work.

The Contractor's right to proceed shall not be terminated nor the Contractor charged with damages under this clause if-

1. the delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of the Purchaser, acts of another Contractor in the performance of a contract with the Purchaser, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. the Contractor, within 10 days from the beginning of any delay, notifies the Purchaser in writing of the causes of delay. If, in the judgment of the Purchaser, the delay is excusable, the time for completing the work shall be extended. The judgment of the Purchaser shall be final and conclusive on the parties, but subject to appeal under the Dispute Resolution provisions.

If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of the Purchaser.

i. Termination for Convenience or Default (Architect and Engineering) The Purchaser may terminate this contract in whole or in part, for the Purchaser's convenience or because of the failure of the Contractor to fulfill the contract obligations. The Purchaser shall terminate by delivering to the Contractor a Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the notice, the Contractor shall: (1) immediately discontinue all services affected (unless the notice directs otherwise); and, (2) deliver to the Purchaser all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process.

If the termination is for the convenience of the Purchaser, the Purchaser shall make an equitable adjustment in the

contract price but shall allow no anticipated profit on unperformed services.

If the termination is for failure of the Contractor to fulfill the contract obligations, the Purchaser may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by the Purchaser.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Purchaser.

j. Termination for Convenience of Default (Cost-Type Contracts) The Purchaser may terminate this contract, or any portion of it, by serving a notice or termination on the Contractor. The notice shall state whether the termination is for convenience of the Purchaser or for the default of the Contractor. If the termination is for default, the notice shall state the manner in which the Contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from the Purchaser, or property supplied to the Contractor by the Purchaser. If the termination is for default, the Purchaser may fix the fee, if the contract provides for a fee, to be paid the Contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the Purchaser and the parties shall negotiate the termination settlement to be paid the Contractor.

If the termination is for the convenience of the Purchaser, the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, the Purchaser determines that the Contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of the Contractor, the Purchaser, after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

If it is later determined that the bidder or proposer knowingly rendered an erroneous certification, in addition to remedies available to the purchaser and the Alaska DOT&PF, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. The bidder or proposer agrees to comply with the requirements of 49 CFR 29, Subpart C while this offer is valid and throughout the period of any contract that may arise from this offer.
