If the Contractor fails to correct any defective work within a reasonable time frame set by the City, the City may, at its sole option, terminate the contract and/or obtain the necessary contract services from another source. The City may hold the original Contractor responsible for any excess costs the City has incurred in order to correct the deficiencies.

Permits, Laws and Taxes: The Contractor must obtain all required permits (including building permits, if needed), licenses and bonds to comply with applicable municipal, state and federal laws, unless otherwise specified in each project agreement.

Compliance: The Contractor must comply with all applicable federal and state labor, wage, hour and safety laws. To determine compliance, the City reserves the right to inspect and audit the Contractor's records and to inspect the Contractor's premises and job sites.

Contract and Project Agreement Amendments: Any requested changes or alterations to the contract must be approved by the Contract Administrator. Any requested changes or alterations to a specific project agreement must be approved by the designated CBJ Project Manager for that project. Any changes or work performed without such approval, will not be binding.

Impossibility to Perform: The Contractor will not be liable for default or breach of contract resulting from impossibility to perform when caused by "Acts of God" or as otherwise provided by the law.

Performance of Contract: If the Contractor is not performing according to the conditions stated in the bid document (contract), City staff will list the nonconformance issues and notify the Purchasing Division in writing and copy the Contractor. If, for some reason, these complaints are not resolved and/or the same type of complaint is being demonstrated over and over and the "good faith effort" in correcting differences appears to be ignored, the Purchasing Division

will consider the contract "in breach" and terminate immediately. In the event the City finds it mandatory to obtain services of another Contractor, the original Contractor may be held ultimately responsible for any additional costs which may be incurred by the City.

Project Agreement Closeout: Prior to final payment of individual Project Agreements, the Contractor shall be required to provide documents to the Contract Administrator which are required by the Alaska Department of Labor (DOL). The documents to be provided shall be listed in the Notice to Proceed for each Project Agreement. Contract Administrator may withhold 5% of amount due until these documents are received.
