Please share these comments with the Assembly and the Visitor Industry task force.  
Thank You

1. I agree with Brian Flory's My Turn article in the Juneau Empire on January 1, 2020. Something has to be done to address and limit the number of cruise ship passengers that are overwhelming Juneau every year.
2. The makeup of the Visitor Industry task force is unclear from the CBJ website. If the number of business and tourist industry members is more than the number of general Juneau residents (non-business or tourist industry), then nothing will ever change in the residents' favor.
3. The costs of tourism needs to be identified and clearly made public. How many of these dollars actually stay in Juneau?
4. Is the industry and the head tax money actually paying for all the services that they use in Juneau? Or are the residents subsidizing their use of our services?
5. I understand that cruise ships are dumping their waste into our Juneau landfill. Do they pay for this? If so, its it enough to deal with the replacement option once the landfill is full? Since the landfill has a limited lifespan, do we want them filling it up before the projected lifespan?

Thank you for considering these issues and questions.  
Jan Moyer
