Thank you for taking time to read my email. I think when you look at all things going on right now in our state we should really think twice about limiting the one bright spot in our economy.

We are fortunate to have a beautiful town that millions of people spend a lot of money to come and visit. Once people visit on a cruise ship they are more likely to come back and Spend more money.

We also have to remember that cruise ship traffic is cyclical. There won't always be this many people traveling to Juneau. I think instead of looking at ways to limit then we should be happy they are coming.

As far as managing the traffic, I think the TMBP has done an excellent job managing the many complexities that come from our tourist season. They are a model that can be duplicated across the country.

Thank you  
Scott
