Thank you, people who are engaging in this discussion about the visitor industry in Juneau, for your service to us all.

Visitors and residents cherish our natural, cultural and social assets. The tourism we welcome is respectful to nature and wildlife, and supportive to its protection. We want the nature and wildlife experience of visitors to be genuine and responsible and the cultural experiences to be respectful and enlightening.

Recycling should be encouraged and supported. Can we ask tourism businesses to report on their successes in waste reduction?

Public safety is vital.

We need to develop a protocol for emergency vehicle access south of the Library roundabout. (lights, radio contact with crossing guards, a plan that says stop traffic from entering until the emergency vehicle has cleared the zone)

The decorative posts and chains help people use sidewalks and crosswalks. The crossing guards are useful and need to be on duty until the big ships leave (maybe until 7:30 pm).

Please take steps to maintain the recreational use of North Douglas - We ride and roll on the road.  
Increase enforcement of speed limit on North Douglas Highway.

Ask the hospital what they need - more staff (both patient care and accounting)?

The open air wifi hotspot at Marine Park is great!

I want folks to relax, enjoy, and learn while they are here I want to encourage situations where people can avoid waiting in crowds and truly experience the quiet and scenery and wildlife.

Anne Fuller, Juneau resident
