Question: Since the CARES fund is not intended to be used for ANY expenditures not related to Corvis, how will the long overdue school roof repairs now be funded? And if the intent of the city was to use these funds to repair the roofs instead of using funds from their own budget, how is this fair to the 10 small businesses denied emergency assistance from JEDC because they were not current paid up in city taxes? Shouldn't this standard apply to ANY and all CP projects that anticipated being funded through CARES?
