Hello All,

Thank you to the Stabilization gang for this! This would be a HUGE relief and give my businesses a fighting chance to last until next summer. We could now try to open (even if limited) and pay some employees if we were able to cover #1 loan payments, #2 rent, #3 utilities #4 employees #5 vendors & taxes (in no particular order). Otherwise it was better for us NOT to open to manage expenses and get by.

I particularly like the landlord portion. Landlords have an asset, my business is my asset, so to incentivize them to work with us make a big difference, not only on the bottom line, but also in good will.

It looks like a fair and well thought out plan that couldn't come soon enough.

THANK YOU!

Tracy LaBarge, Owner
