EmergencyAppropriationResolution2909

This I support - I'd like to see the amount increased significantly to cover all homes for the entire winter.

Ordinance2020-09(O)

I don't understand the intent of this. I'd support a scholarship grant for healthcare related education programs, but that should have been done 4 months ago.

Ordinance2020-09(P)

I do not like this. Seems like overlap with Small business grants. Why would you want to give restaurants/hotels with hardly any customers more money than individuals for their heating and utility costs?

EmergencyAppropriationResolution2911

Again I do not like this. This problem is far bigger than what the municipality can solve. Mortgage grants are not going to prop up the housing market for long. Rental assistance passes through to landlords. Furthermore, this is targeting the same demographic who own businesses who have already received lots of grants.
