Subject: Re: Extreme hardship grant proposal

Hello! I'm responding to the request to share information about how my business has been impacted by Covid and related issues. I am a massage therapist and somatic coach. I have lost about 95% of my income for two reasons: First, two people in my family are at an increased risk for Covid complications due to lung and inflammation issues. As a result, my husband and I decided that I should no longer provide massage during this time. Second, I am currently at home with my children since school is not in session. This means that my capacity to see coaching clients online is greatly diminished, as is my capacity to complete courses for graduate school. As a result, my graduation and future employment as a psychotherapist has been delayed by six months.

Thank you for your consideration of small businesses during this time,
Evelyn

Hello!!

I have included you in this email because you came to mind when my good friend and former neighbor, Eric Forst contacted me about reaching out to small businesses who have been financially impacted by the COVID crisis. They are trying to get another grant made available to businesses like ours.

Even if you do not feel you would or need to apply for a grant at this time, I would ask you take a few minutes to email how you've been impacted, as recommended below. There are so many who are in dire financial times and the more we can share about our hardships, the more it can help small business make it through these times. Please feel free to forward this to anyone else.

This is time sensitive so you if you could do this in the next 24-48hrs that would be awesome!!!

Thank you in advance for your time and consideration.
Corinne

Extreme Hardship Grant CBJ Proposal

Juneau Lynn Canal CHARR is working on putting together information for a grant for the hardest hit and most harmed business by City, State, and Federal mandated Closures, Occupancy limitations and COVID.

We need INFORMATION and ACTION from you quickly. Time is critical right now between Assembly reorganization after election and the Federal CARES Act December 31 drop dead date.

The Action needed:

Send an email to the ESTF (Economic Stabilization Task Force) and copy the Juneau Assembly. This needs to be sent before Wednesday morning October 7th to have the most impact. Sooner is better than later.

economic-stabilization@juneau.org

BoroughAssembly@juneau.org

Let them know how you have been **Disproportionately Harmed** by:

- COVID
- Shutdowns
- Limited Capacity
- Loss of products due to shutdowns
- Employee losses
- Lack of tourism due to no-sail orders
