These are trying times and if you are in downtown Juneau, it is almost impossible to survive if you are in business.

From the beginning of COVID-19 the 6th of February our business has suffered; we had to cut our orders by 70-80% and our business is still down around 80%. We were closed from March 6th- May 29th. Then with the lack of Cruise tourism you are looking at the stagnation of our town.

Not only have we been effected by COVID-19, but then throw in the the homeless issue and shut downs I would venture to say only about 10% of the local population has been downtown.

I would say most business located downtown, would more than qualify for an Extreme Hardship Grant. I am sure this could be substantiated by CBJ Tax records.

While we are grateful for the two CBJ grants; we are in dire need of support, bearing the the unknown for the coming year.

The number of employees on our Payroll

4th Quater 2919 - 4

1st Quarter 2020 - 5

Thank You

Ann House

- **Alaska** – 14-day cruises with calls to Alaska's most iconic ports including: Ketchikan, Icy Strait Point, Juneau, Skagway and Sitka. Plus visit charming Prince Rupert and experience Hubbard Glacier, North America's largest tidewater glacier. Departure dates: July 3, July 17, 2021.

Some good news – Crown Princess is scheduled to replace two (2) of the 11 canceled Sun Princess sailings in 2021, calling in Juneau July 9 and July 23. Sun Princess was sold last month.

REMINDER:

Even if you have [mild symptoms](#) of COVID-19, it's important to get tested. Call Juneau's COVID-19 Screening Hotline at 586-6000, 8 a.m. to 5 p.m. daily.

Juneau residents should also continue to be diligent with these other preventive measures:

- Stay six feet or more away from non-family members.
- Cover your mouth and nose with a cloth face cover when around others.
- Wash your hands frequently.
- Stay home if you are sick and get tested for COVID-19 if you have even [mild symptoms](#). Call Juneau's COVID-19 Screening Hotline at 586-6000, 8 a.m. to 5 p.m. daily.

Get a FLU Shot: Flu shots help with three things:

-greatly reduce the chance of getting the flu

-greatly reduce the chance that flu like symptoms may be confused for COVID symptoms

-help protect the medical system by reducing the number of people hospitalized with the flu.
