**Biographical Information** *[limited to 150 words or less.]:*

Born in Juneau, Michelle Bonnet Hale moved with her family when she was 11 to Craig and then Tokeen, on a remote island off Prince of Wales Island.

She worked in the family businesses from the age of 12, fishing, buying fish, working in the store and at the gas dock. She still holds a hand troll permit.

She attended and graduated high school via home schooling and, when she was 19, returned to Juneau. Her 30-year career has been in water quality.

With a business partner, Michelle recently purchased the custom framing shop Picture This. This venture and her continuing assembly work are keeping her very busy.

Michelle is married to the delightful Jim Hale, and they share a duplex with her mother. She has five stepchildren and two dogs.

**Position Statement** *[limited to 250 words or less.]:*

The work of the Assembly is critical at this time as we rebuild our economy, care for all of our residents, and maintain a robust public health response to the threat of Covid. My understanding of the Assembly process is exactly what is needed, as is my experience with the budget, economic recovery and development, child care, and homelessness.

My accomplishments during my first Assembly tenure include:

- Taking the lead on a drop in CBJ's mill rate, resulting in a small but important reduction in property taxes.
- Being part of the remarkable Assembly that has shepherded Juneau thus far during the Covid pandemic, taking important steps like instituting a mask mandate, and funneling significant CARES Act money directly to the businesses in need.
- Chairing the Public Works and Facilities Committee, addressing infrastructure needs like street maintenance, wastewater treatment, and solid waste.
- Taking on difficult issues like fireworks, working with the Assembly to arrive at a compromise that improves the fireworks situation in Juneau although it is likely that more action will be needed.

The term most often used to describe me is "thoughtful." I do my homework, I listen to diverse opinions, and I draw upon my lifetime in Alaska and my professional background to make solid and well-considered decisions.

Serving on the Assembly has been the best job of my life. I would be honored to serve Juneau for a second term.
