

PUBLIC NOTICE

CALHOUN AVENUE RECONSTRUCTION PHASE I

AFFECTED AREA: Calhoun Avenue (from Gold Creek to W. 7th Street)

DATE ISSUED: October 4, 2022

DURATION: Fall 2022

Dear Resident,

The contractor is actively working on finishing the required concrete work and expects to begin final grading followed by paving. This work will require the full closure of Calhoun Avenue from Gold Creek Bridge to W. 7th Street. This road closure will begin on Thursday 10/6/22 and will go through the following Thursday 10/13/22.

The current revised traffic pattern will remain in place, with additional closures and detours at Capitol Avenue and Irwin Street. This work will also require the closure of Cope Park Road to vehicular traffic.

Additional road closures can be expected for items of work including lane striping and concrete crosswalk installation.

Please continue to use caution when utilizing the revised routes as these changes will be unfamiliar to most users. Pedestrian access will be maintained to Cope Park and along Calhoun Avenue, but we recommend that you use caution as heavy equipment will be operating in the area.

CBJ, proHNS and North40 Construction Corp. apologize for any inconvenience and appreciate the public's patience during the project construction.

For more information, contact the CBJ Project Manager John Nelson at 907-957-2187 john.nelson@juneau.org; North40 Construction Corp. Superintendent Jason Sims at 907-723-9722, or proHNS Project Engineer Ethan Roemeling at 907-780-4004, ethan@prohns.com. To be added to the project email list please contact Ethan Roemeling.
