

## Treadwell Arena SCHOOL/YOUTH GROUP GUIDELINES

We recommend the following rules, guidelines, and suggestions be followed during your visit to the Treadwell Arena to ensure a safe and a fun time for all.

1. The arena has a limited amount of helmets and rental skates. We suggest that children bring helmets, safety gear, warm clothes, gloves and skates, if they have their own. In addition, tall/knee socks are best to reduce skin irritation.
2. Ice skates are usually 1 to 2 sizes smaller than your street shoes (depends on the skate type & style). For example, if you wear a size 5 shoe then you will probably wear a size 3 hockey skate. We have both hockey & figure rental skates.
3. Teachers/Guardians need to inform skaters of all rink rules.

Some of the most important rules to emphasize are:

- No tag, pushing, sliding, or throwing object (hats, gloves, etc.) at other skaters.
- No chipping holes in the ice with skates or scraping up the snow to make snowballs.
- No food or drinks on the ice or on the players benches. All food and beverages must be consumed in the lobby area.
- No skates on bleachers. Skates need to be on rubber matted surfaces only (lobby, bathrooms, player benches, inside entry).
- SKATE UNDER CONTROL AT ALL TIMES.
- *Mask are optional*

Teacher to student ratio should be 1 chaperone to every 10 skaters. We ask that a few chaperones are on the ice, skating with the kids.

We are happy that you have chosen the Treadwell Arena for your class activity. Please help us enforce the rink rules for a safe and positive experience for everyone.

Thank you,

Treadwell Arena Staff
