PROJECT SUMMARY
 Temporary Asphalt Plant on site in support of CBJ project BE23-243 JNU Rehabilitate Part 121/135 Apron & RON Parking Apron

TYPE OF ALLOWABLE OR CONDITIONAL USE PERMIT REQUESTED
 Accessory Apartment – Accessory Apartment Application (AAP)
 Use Listed in 49.25.300 – Table of Permissible Uses (USE)
 Table of Permissible Uses Category: 4100

IS THIS A MODIFICATION or EXTENSION OF AN EXISTING APPROVAL? YES – Case # _____ NO

UTILITIES PROPOSED WATER: Public On Site SEWER: Public On Site

SITE AND BUILDING SPECIFICS
 Total Area of Lot ^{87,120} _____ square feet Total Area of Existing Structure(s) _____ square feet
 Total Area of Proposed Structure(s) _____ square feet

EXTERNAL LIGHTING
 Existing to remain No Yes – Provide fixture information, cutoff sheets, and location of lighting fixtures
 Proposed No Yes – Provide fixture information, cutoff sheets, and location of lighting fixtures

ALL REQUIRED DOCUMENTS ATTACHED

Narrative including:
 Current use of land or building(s)
 Description of project, project site, circulation, traffic etc.
 Proposed use of land or building(s)
 How the proposed use complies with the Comprehensive Plan

Plans including:
 Site plan
 Floor plan(s)
 Elevation view of existing and proposed buildings
 Proposed vegetative cover
 Existing and proposed parking areas and proposed traffic circulation
 Existing physical features of the site (e.g.: drainage, habitat, and hazard areas)

If this is a modification or extension include:
 Notice of Decision and case number
 Justification for the modification or extension
 Application submitted at least 30 days before expiration date

----------------------------------	----------------------------------

Allowable/Conditional Use Permit Application Instructions

Allowable Use permits are outlined in CBJ 49.15.320, Conditional Use permits are outline in CBJ 49.15.330

Pre-Application Conference: A pre-application conference is required prior to submitting an application. There is no fee for a pre-application conference. The applicant will meet with City & Borough of Juneau and Agency staff to discuss the proposed development, the permit procedure, and to determine the application fees. To schedule a pre-application conference, please contact the Permit Center at 586-0770 or via e-mail at permits@juneau.org.

Application: An application for an Allowable/Conditional Use Permit will not be accepted by the Community Development Department until it is determined to be complete. The items needed for a complete application are:

1. **Forms:** Completed Allowable/Conditional Use Permit Application and Development Permit Application forms.
2. **Fees:** Fees generally range from \$350 to \$1,600. Any development, work, or use done without a permit issued will be subject to double fees. All fees are subject to change.
3. **Project Narrative:** A detailed narrative describing the project.
4. **Plans:** All plans are to be drawn to scale and clearly show the items listed below:
 - A. Site plan, floor plan and elevation views of existing and proposed structures
 - B. Existing and proposed parking areas, including dimensions of the spaces, aisle width and driveway entrances
 - C. Proposed traffic circulation within the site including access/egress points and traffic control devices
 - D. Existing and proposed lighting (including cut sheets for each type of lighting)
 - E. Existing and proposed vegetation with location, area, height and type of plantings
 - F. Existing physical features of the site (i.e. drainage, eagle trees, hazard areas, salmon streams, wetlands, etc.)

Document Format: All materials submitted as part of an application shall be submitted in either of the following formats:

1. Electronic copies in the following formats: .doc, .txt, .xls, .bmp, .pdf, .jpg, .gif, .xlm, .rtf (other formats may be preapproved by the Community Development Department).
2. Paper copies 11" X 17" or smaller (larger paper size may be preapproved by the Community Development Department).

Application Review & Hearing Procedure: Once the application is determined to be complete, the Community Development Department will initiate the review and scheduling of the application. This process includes:

Review: As part of the review process the Community Development Department will evaluate the application for consistency with all applicable City & Borough of Juneau codes and adopted plans. Depending on unique characteristics of the permit request the application may be required to be reviewed by other municipal boards and committees. During this review period, the Community Development Department also sends all applications out for a 15-day agency review period. Review comments may require the applicant to provide additional information, clarification, or submit modifications/alterations for the proposed project.

Hearing: All Allowable/Conditional Use Permit Applications must be reviewed by the Planning Commission for vote. Once an application has been deemed complete and has been reviewed by all applicable parties the Community Development Department will schedule the requested permit for the next appropriate meeting.

Public Notice Responsibilities: Allowable/Conditional Use requests must be given proper public notice as outlined in CBJ 49.15.230:

The Community Development Department will give notice of the pending Planning Commission meeting and its agenda in the local newspaper a minimum of 10-days prior to the meeting. Furthermore, CDD will mail notices to all property owners within 500-feet of the project site.

The Applicant will post a sign on the site at least 14 days prior to the meeting. The sign shall be visible from a public right-of-way or where determined appropriate by CDD. Signs may be produced by the Community Development Department for a preparation fee of \$50, and a \$100 deposit that will be refunded in full if the sign is returned within seven days of the scheduled hearing date. If the sign is returned between eight and 14 days of the scheduled hearing \$50 may be refunded. The Applicant may make and erect their own sign. Please contact the Community Development Department for more information.

INCOMPLETE APPLICATIONS WILL NOT BE ACCEPTED

RE: City and Borough of Juneau Conditional Use Permit Application
Temporary Location of ASTEC Asphalt Plant
For Project BE23-243 JNU Rehabilitate Part 121/135 Apron & RON Parking Apron

To Ms. Camery,

Secon was awarded a project at the Juneau International Airport (JIA), CBJ Contract No. BE23-243, JNU Rehabilitate Part 121/135 Apron & RON Parking Apron in late 2023. The substantial completion date for the project is September 30st, 2026. This project has a bid quantity of 23,512 tons of Hot Mix Asphalt for the planned airport improvements.

To facilitate the operations of paving at the airport Secon is requesting a Conditional Use Permit (CUP) for the ASTEC Asphalt Plant at a location by Gate P on Maplesden Way inside the airport fence on JIA property.

The ASTEC Asphalt Plant has been setup on the JIA property for previous projects in 2015 by the float pond and in 2018, 2019, and 2020 by Gate P. The proposed location for the asphalt plant is the same as it occupied during the 2018-2020 approvals and has been approved by the JNU Airport Project Manager. The location meets the TSA's set-backs from the security fence for any structure or vehicle. It is below the height requirements for any structure near the FAA's runway control envelope. It is also outside of the FAA/JIA taxiway's control zone. It has been accepted by Alaska Department of Environmental Conservation (DEC) for the current location.

Typical JIA project working hours are Monday through Sunday 7:00 AM to 7:00 PM. The project also includes contract mandated night work to maintain commercial flight patterns. These night work hours will follow contract guidelines and are subject to change. A Noise permit has been applied for with CBJ. The spring startup is anticipated for the first of April. Paving will start sometime towards end of April to first part of May depending upon weather. This project has a final completion date of

October 28th, 2026 with seasonal shutdowns of approximately October 31 in 2024 and 2025. We anticipate having the plant setup on site for the duration of the project or roughly 30 months.

The project is broken up into 12 phases of work to allow construction as well as continued seamless operation of the airport facilities by all users. Secon has proposed a revised 8 phase plan. Final phasing is still under discussion but has no affect on asphalt plant location or duration.

The trucking route for the project is all within the fenced airport perimeter (reference sheet C1.0). No impacts to Yandukin Drive, Shell-Simmons Drive and Cessna Drive. As the contractor haul route starts at Gate P all trucking for the project was planned for access thru Maplesden Way. With the ASTEC Asphalt Plant located at Maplesden Way it would eliminate trucks hauling hot asphalt from Concrete Way to Egan Drive and then turning across in-bound traffic on Egan Drive and reduce the trucking impacts to Maplesden Way itself. Raw aggregates for making asphalt will come from both Hidden Valley and Aggpro via Egan Drive not thru Lemon Creek residential area. An estimated average of 50 loads in a day when hauling aggregate. AML will be delivering tanks of asphalt cement via Egan Drive for the project with an estimated maximum of 12 loads per day.

Light for the asphalt plant may be needed. Lighting will be provided via portable self-contained light plants. The lights will be setup with the intent of not impacting the Egan Highway traffic or JIA air traffic. JIA Project Engineer will determine the location and light direction per FAA requirements if there are concerns from interested parties.

The ASTEC Asphalt Plant is operating under the Project's Construction SWPPP which is currently in the final approval process. The NOI Authorization from DEC can be provided when available.

Based on google earth the nearest stream is about 1,400 feet from the plant on the far side of taxiway F. The nearest wetland is on the other side of TEMSCO at about 900 feet away.

Per the State of Alaska Geoportal for Documented Eagle Nest Sites, there are no active sites within a ½ mile radius of the proposed asphalt plant location.

Dust control will be with a water truck wetting down the truck routes.

The plant will be located on dredged sands and gravels from the float plane pond. If any stormwater runoff is present it will be managed with wattles and earthen berms.

The ASTEC Asphalt Plant air quality permit AQ0247MG301 can be found at DEC's Air Permits Approvals and Public Notices web page:

<http://dec.alaska.gov/Applications/Air/airtoolsweb/AirPermitsApprovalsAndPublicNotices>

Permit/Approval Type: Minor General - Asphalt Plant - Title I (MG3)

Owner: Colaska Inc, dba Secon

Stationary Source: ASTEC Super Six Drum Mix Asphalt Plant

Security is courtesy of JIA in being located inside their fences and on their property.

Attachments comprise original phasing plan, proposed phasing plan, Sheet C1.0 showing trucking routes, ASTEC location, ASTEC setup, 7460 for asphalt plant and crane used to set it up, and pre-application meeting report.

We believe that it would provide a benefit to CBJ if this CUP extended beyond just a single project. We request the permit be for 10 years as is typical for these permits. This process has been undertaken multiple times in the past six years for airport project work and the trend will likely continue. At a minimum, we request the permit expiration be tied to the project completion date even if it changes so permit flexes with project changes.

If any question or clarifications are need please contact me.

Sincerely,

A handwritten signature in black ink that reads "Maureen A. Hansen". The signature is fluid and cursive, with a long horizontal stroke at the end.

Maureen A. Hansen, P.E

Engineering & Environmental Manager

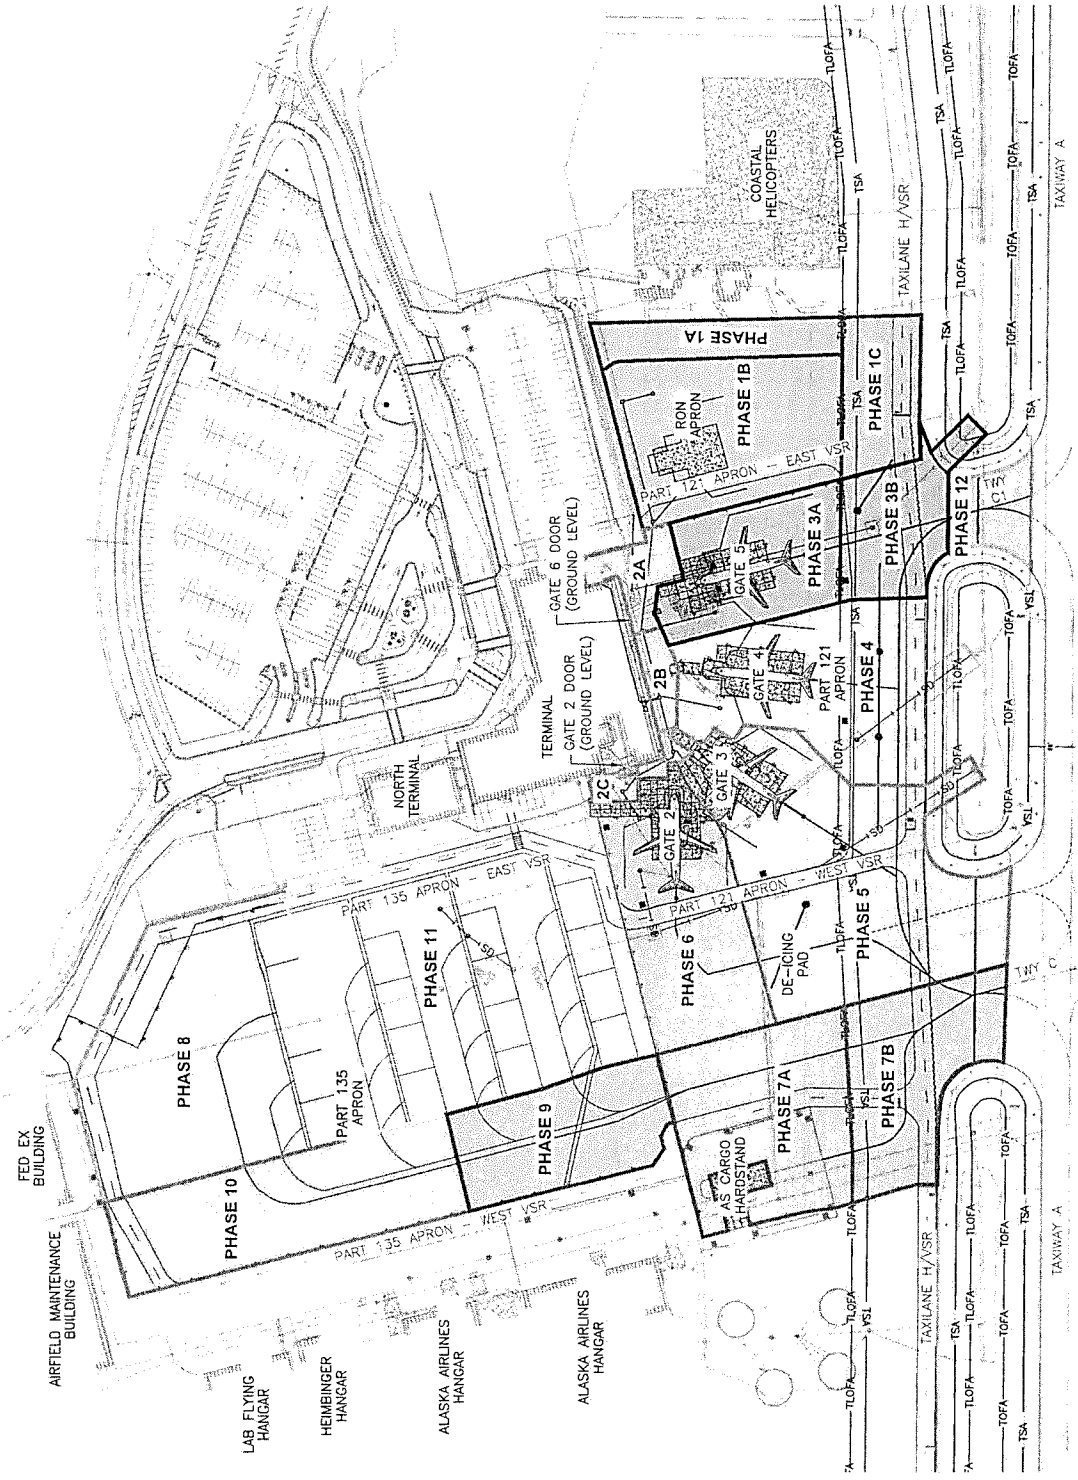

PHASING OVERVIEW NOTES

1. PHASE 1B WORK (SEE SHEET C3.2) AND PHASE 3A WORK (SEE SHEET C3.8) WILL OCCUR CONCURRENTLY.
2. PHASE 1C WORK (SEE SHEET C3.3) AND PHASE 3B WORK (SEE SHEET C3.9) WILL OCCUR CONCURRENTLY.
3. PHASE 11 WORK WILL BE FURTHER SUBDIVIDED AS DETAILED ON SHEET C3.18 TO MAINTAIN AIRCRAFT PARKING POSITIONS IN THIS WORK AREA.

Description: This Notice is to be used in conjunction with another project filed under with Aeronautical Study Number 2023-AAL-1209-NRA. An asphalt plant will be set up for the duration of the project in another area of the airport. The plant will be set up in the Northeast Development Area (NEDA) of Juneau International Airport. A site plan from the conformed documents has been included for reference.

We do not object with conditions to the construction described in this proposal provided:

You comply with the requirements set forth in FAA Advisory Circular 150/5370-2, "Operational Safety on Airports During Construction."

- The proposal violates the criteria given in the siting standard, Order 6560.20, for the Runway Visual Range (RVR) equipment serving Ted Stevens Juneau International Airport, Juneau, Alaska (AK). The proposal is expected to generate significant dust or smoke in the vicinity of the RVR Runway 08 Touchdown/Runway 26 Rollout and Ambient Light Sensor facilities. If not possible, the RVR data must be NOTAMed out of service and additional cleaning, calibration, and maintenance may be required. Contact the Operations Control Center (OCC) prior to the start of the project in order to schedule any necessary service outages at 866-4-FAA-OCC.
- Contact Airport Management prior to starting work to coordinate the work schedule, issue NOTAMs and possible impact mitigations.
- A separate notice to the FAA is required for any construction equipment, such as temporary cranes, whose working limits would exceed the height and lateral dimensions of your proposal.

- Please inform the airport owners that as the Airport Layout Plan is updated, please include this new development.

Further, you should contact the Airport Traffic Control Tower (ATCT) Watch Supervisor at (907) 790-8502 prior to the crane(s) being raised for purposes of establishing a procedure to have the crane(s) immediately lowered upon request of the ATCT. When the crane(s) is no longer needed and has been permanently lowered, you should contact the ATCT at the telephone numbers given above and log back into your registered E-file account to provide the Flight Data Center (FDC) with notification that the NOTAM can be cancelled.

This determination does not constitute FAA approval or disapproval of the physical development involved in the proposal. It is a determination with respect to the safe and efficient use of navigable airspace by aircraft and with respect to the safety of persons and property on the ground.

In making this determination, the FAA has considered matters such as the effects the proposal would have on existing or planned traffic patterns of neighboring airports, the effects it would have on the existing airspace structure and projected programs of the FAA, the effects it would have on the safety of persons and property on the ground, and the effects that existing or proposed manmade objects (on file with the FAA), and known natural objects within the affected area would have on the airport proposal.

This determination expires on 10/31/2025 unless:

(a) extended, revised or terminated by the issuing office.

(b) the construction is subject to the licensing authority of the Federal Communications Commission (FCC) and an application for a construction permit has been filed, as required by the FCC, within 6 months of the date of this determination. In such case, the determination expires on the date prescribed by the FCC for the completion of construction, or the date the FCC denies the application.

NOTE: Request for extension of the effective period of this determination must be obtained at least 15 days prior to expiration date specified in this letter.

If you have any questions concerning this determination contact Venus Larson (907) 271-3813 venus.larson@faa.gov. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 2024-AAL-27-NRA.

Conference Date: January 24, 2024
 Report Issued: February 7, 2024

DISCLAIMER: Pre-application conferences are conducted for the purpose of providing applicants with a preliminary review of a project and timeline. Pre-application conferences are not based on a complete application and are not a guarantee of final project approval.

List of Attendees

Note: Copies of the Pre-Application Conference Report will be emailed, instead of mailed, to participants who have provided their email address below.

Name	Title	Email address
Maureen Hansen	Applicant	mhansen@colaska.com
Teri Camery	Planning	teri.camery@juneau.gov
Bridget LaPenter	General Engineering	Bridget.LaPenter@juneau.gov
David Sevdy	Permit technician	David.sevdy@juneau.gov

Conference Summary

Questions/issues/agreements identified at the conference that weren't identified in the attached reports. The following is a list of issues, comments and proposed actions, and requested technical submittal items that were discussed at the pre-application conference.

Project Overview

The applicant requests a Conditional Use Permit for the development of a temporary asphalt plant at the Juneau International Airport in the corner along Maplesden Way for paving work on CBJ Contract No. BE23-243. The location is the same as two previous projects: USE2020-0005 for CBJ Contract No. BE19-218; and USE2019-0001 for CBJ Contract No. BE18-213. The applicant intends to start work in May and operate through the construction season. The project could extend through 2025.

The applicant is encouraged to follow the application materials used in previous Conditional Use Permit applications as provided via email, and to specifically address the following issues: light and noise and working hours; months/seasons of operation; a drainage plan and final Stormwater Pollution Prevention Plan in conformance with Alaska Department of Environmental Conservation requirements; lighting; and anticipated daily truck traffic and truck routes.

The applicant should allow for a three month process before obtaining a final decision from the CBJ Planning Commission.

Planning Division

1. **Zoning** – Industrial
2. **Table of Permissible Uses** - The requested permit is appropriate according to the Table of Permissible Uses. The permit is listed at CBJ 49.25.300, Section 4.100, Heavy Manufacturing, for the Industrial zoning district.
3. **Setbacks** – Setbacks in the Industrial zoning district are 10 feet in the front, rear, and sides.
4. **Height** – There is no maximum height in the Industrial zoning district.
5. **Access** – Maplesden Way and Yandukin Drive
6. **Parking & Circulation**– Parking and circulation requirements are based on gross floor area per CBJ Code 49.40.210(a), which is not applicable to the proposed development. The code does not have an established parking requirement for asphalt plants or similar uses that utilize large outdoor plants and outdoor storage areas.
7. **Lot Coverage** – There is no maximum lot coverage in the Industrial zoning district.
8. **Vegetative Coverage** – The vegetative cover requirement in the Industrial Zoning district is five percent, and is not relevant to the proposed temporary asphalt plant.
9. **Lighting** – A lighting plan needs to be addressed in the application project narrative. Exterior lighting may not shed light or glare above the roofline of the building or beyond the property line of the site. Industrial and exterior lighting shall not be used in a manner that produces glare on public highways or neighboring property. All exterior lighting fixtures shall be of a “full cutoff” design.
10. **Noise** – Daily hours of operation and noise impacts need to be addressed in the application project narrative.
11. **Flood** –

The proposed development is not within a mapped floodplain.

12. Hazard/Mass Wasting/Avalanche/Hillside Endorsement –

The proposed development is not within a mapped hazard zone.

13. Wetlands – There are no wetlands on the project site.

14. Habitat – Check with the U.S. Fish and Wildlife on the presence of eagle nests in the area. The presence of eagle nests may impact construction scheduling. No anadromous waterbodies are within 50 feet of the development.

15. Plat or Covenant Restrictions – n/a

16. Traffic – Traffic routes and daily traffic estimates need to be included in the project narrative in the application.

17. Nonconforming situations – There are no known nonconforming situations on the property.

Building Division

18. Building – The Building Division has no issues.

19. Outstanding Permits – none.

General Engineering/Public Works

20. Engineering – CBJ Engineering has no issues.

Fire Marshal

21. Fire Items/Access – The Fire Department has no issues with the proposal.

Other Applicable Agency Review

22. Alaska Department of Environmental Conservation comments will be required for the permit review, in addition to other standard agency reviews.

List of required applications

Based upon the information submitted for pre-application review, the following list of applications must be submitted in order for the project to receive a thorough and speedy review.

1. Development Permit Application
2. Conditional Use Permit Application

Additional Submittal Requirements

Submittal of additional information, given the specifics of the development proposal and site, are listed below. These items will be required in order for the application to be determined Counter Complete.

1. A copy of this pre-application conference report.

Exceptions to Submittal Requirements

Submittal requirements that staff has determined **not** to be applicable or **not** required, given the specifics of the development proposal, are listed below. These items will **not** be required in order for the application to be reviewed.

1. n/a

Fee Estimates

The preliminary plan review fees listed below can be found in the CBJ code section 49.85.

Based upon the project plan submitted for pre-application review, staff has attempted to provide an accurate estimate for the permits and permit fees which will be triggered by your proposal.

1. Conditional Use Permit Class IV use, \$1,000.00
2. Conditional Use Permit Public Notice sign fee \$50; deposit \$100.

For informational handouts with submittal requirements for development applications, please visit our website at www.juneau.org/community-development.

Submit your Completed Application

You may submit your application(s) online via email to permits@juneau.gov

OR in person with payment made to:

General Permit Authorization Number: **AKR10H0FR v1.0**

This email/letter acknowledges that you have submitted a Notice of Intent (NOI) form to be covered under the APDES General Permit for Stormwater Discharges for Construction General Permit Activity (Construction General Permit) and is assigned the permit authorization number: AKR10H0FR v1.0. Please reference your permit authorization number in all future correspondence. The permittee is authorized to discharge storm water under the terms and conditions of this permit upon the issuance date of this letter and expires January 31, 2026 or as per Permit Part 2.6. Permit documents will be posted to the Alaska DEC EDMS Map Explorer at <https://dec.alaska.gov/Applications/Water/EDMS/nsite>.

According to the NOI information provided (ref: HQ1-XBW4-5FJVQ, recd: 03/05/2024), the location of the SWPPP or the name and telephone number of the contact person for scheduling SWPPP viewing times is as follows:

- **SWPPP Location:** Project Address
- **SWPPP Contact:** Jared Mackey, Project Engineer, (406) 529-6331, jmackey@colaska.com, 1836 Anka Street, Juneau, AK 99801

Note, as per Permit Part 2.7 the permittee is required to **submit a modification NOI within 30 calendar days if any of the following change:** Owner/Operator address and contact information, site information, estimated start or end dates, acres disturbed, or SWPPP location and contact information.

Coverage is not transferable. The permittee must **submit a Notice of Termination (NOT) instead of an NOI modification to DEC within 30 calendar days when the operator has changed.** A change of operator in this case means when an organization changes control of the project. It does not mean when a corporate officer of the organization changes while the organization continues with the project. The new owner/operator must file a new NOI to obtain coverage under the CGP.

A permittee must **submit an NOT within 30 calendar days when final stabilization has been achieved on all portions of the site**, in accordance with Permit Part 4.5.2 for which the permittee is responsible, all ground disturbing construction activity or use of support activities has been completed, and all temporary Best Management Practices (BMP's) have been removed; or a new permittee has assumed control over all areas of the site that have not been finally stabilized.

AKR10H0FR

As stated above, this letter acknowledges receipt of a Notice of Intent. However, it is not an ADEC determination of the validity of the information you provided. Your eligibility for coverage under the Permit is based on the validity of the certification you provided. Your signature on the Notice of Intent certifies that you have read, understood, and are implementing all of the applicable requirements. An important aspect of this certification requires that you correctly determine whether you are eligible for coverage under this permit.

As you know, the Construction General Permit requires you to have developed and begun implementing a Stormwater Pollution Prevention Plan (SWPPP) and outlines important inspection and record keeping requirements. You must also comply with any additional location-specific requirements applicable to Alaska. A copy of the Construction General Permit must be kept with your SWPPP. An electronic copy of the Permit and additional guidance materials can be viewed and downloaded at <https://dec.alaska.gov/water/wastewater/stormwater/construction>.

Prior to discharge, please review your authorization and general permit AKR100000 to ensure that you understand the requirements contained within them. If you have general questions regarding the storm water program or your responsibilities under the Construction General Permit, please call 907-269-6285.

Re: EDMS CGP NOI Submission: HQ1-XBW4-5FJVQ, Received: 3/5/2024 1:29:50 PM
