

Table of Permissible Uses

Regulations and Key

49.25.300 Determining uses.

- (a) (1) *Listed uses.* There is adopted the table of permissible uses, table 49.25.300. The uses permitted in a zoning area shall be determined through the table of permissible uses by locating the intersection of a horizontal, or use axis and a vertical, or zone axis. The conditions and procedures applicable to the use in the zone thus located shall be as indicated thereat by the digits "1," "2," or "3" as more fully set out in this section and by letters of the alphabet as more fully set out by footnotes in the table. The absence of a digit at the intersection of use and zone axes means that the identified use is not permitted in the identified zone.
- (2) *Unlisted uses.* The permissibility of a use not listed shall be determined pursuant to section 49.20.320.
- (3) *Uses listed more than once.* Where a use might be classified under more than one category, the more specific shall control. If equally specific, the more restrictive shall control.
- (4) *Accessory uses.* Uses constituting an incidental or insubstantial part of a permissible use and commonly associated with the permissible use may be allowed as an accessory use.
- (5) *Nonconforming uses.* Nonconforming uses, including nonconforming residential densities, are subject to chapter 49.30.
- (b) (1) When used in conjunction with a particular use in the table of permissible uses, the number "1" indicates that the use requires department approval pursuant to chapter 49.15, article III, in conjunction with the issuance of a building permit. The use is allowed in the district, but limited conditions may be attached to the approval.
- (2) The number "2" indicates the use requires an allowable use permit from the planning commission. Such uses are allowed in the district, but specified conditions may be attached to the allowable use permit by the commission. The permit procedure is outlined in chapter 49.15, article I.
- (3) The number "3" indicates the use requires a conditional use permit from the commission. The use may or may not be allowed at a particular location, depending on a determination of its compatibility with surrounding or proposed land uses. The planning commission may attach any condition to ensure the compatibility of the proposed use. The conditional use permit procedure is outlined in chapter 49.15, article I.
- (c) A combination of digits such as "1, 3" or "2, 3" indicates that the approval procedure for the identified use in the identified zone will vary depending on whether the project is a major or minor development.
- (1) If the project is a minor development the first number of the combination shall indicate the applicable procedure.
- (2) If the project is a major development the second number shall indicate the applicable procedure.
- (3) Minor development means development which is classified by zoning district as follows:
- (A) *Rural reserve district:* A residential development containing two or fewer dwelling units, two or fewer bedrooms leased on a daily or weekly basis, or a nonresidential building totaling less than 10,000 square feet or using less than one acre of land in total.
- (B) *Single-family residential districts:* A residential development containing two or fewer dwelling units, two or fewer bedrooms leased on a daily or weekly basis, or a nonresidential building totaling less than 5,000 square feet or using less than 10,000 square feet of land in total.
- (C) *Multifamily residential districts:* A residential development containing eight or fewer dwelling units, eight or fewer bedrooms leased on a daily or weekly basis, or a nonresidential building totaling less than 5,000 square feet or using less than 10,000 square feet of land in total.

- (D) *Commercial and mixed use districts*: A residential development containing 12 or fewer dwelling units, 12 or fewer bedrooms leased on a daily or weekly basis, or a nonresidential building totaling less than 10,000 square feet or using less than one-half acre of land in total.
 - (E) *Industrial districts*: Non-residential buildings totaling 15,000 square feet or using less than one acre of land in total.
- (4) Major development means all development activity that is not a minor development.
 - (5) Exceptions. Exceptions to the use of minor and major development classifications as a method of determining the applicable approval procedure shall be as noted in the table of permissible uses.
